Security is very important within your company's control.

Plant Security:

Plant security options provide you with the following modules:

VEHICLE CONTROL:
Catalogue to register all vehicles of the employees of the plant with the ease of instant location options.

CONTROL OF DRAWERS:
With a catalogue full control drawers assigned to workers as well as padlocks with its combination for cases of loss or forgetfulness of passwords.

VISIT CONTROL:
It allows to have a register of authorized visitors fully identified with the data of personal identification, the company to which they belong and their social security. It also has a module for the electronic log of visitors at the company.

CGA VALUE ADDED

Taking into account the needs of today, the system of human resources in CGA provides a series modules that can promote you in the common internal controls of your company.

Team / Tool by employee:

This option allows you to control the tool or machinery owned by the company, keeping a detailed receipt and a record of the history of use by staff.

Support to practitioners:

Taking into account that today companies take into account the new generations to integrate them into the work environment, the CGA system has a logging module to capture the student personnel that work in your company, assigning the perceptions of support that are assigned as well as control of payment.

Career Opportunities:

The labour potential which has the community is important for your company, by that CGA has a module for registration of all candidates who have applied for your company, in order to have them available when I need it.

CANDIDATES: This module allows you to register the curricula vitae of possible candidates who have applied for new entry within the company, providing ease of registering them by categories and have them available at the time of requiring them. It has personal, demographic data and history of interviews.

VACANCIES: Utility available to register vacancies that your company put at disposal to the working community, providing a relationship with the previous module showing the requested vacancy-compatible candidates.

Letters in Microsoft Word:

This utility allows you to automatically generate any kind of trade with those who count their company, making instant filling of both your company and employees data targeted since it maintains a relationship with the record catalogues.
